EDUCATION

CAVITE STATE UNIVERSITY - DON SEVERINO DE LAS ALAS CAMPUS

Bachelor of Science in Computer Engineering

Indang, Cavite, Philippines

Expected February 2027

WORK EXPERIENCE

ADVERGREEN DIGITAL

Automation Specialist, Project-Based

Remote, Singapore

July 2026 – Current

- Built a Pabbly workflow connecting WhatsApp Business to an Airtable CRM, automatically routing and logging inbound client inquiries and eliminating manual message handling.

UNLOCKING LANGUAGE

Full-Stack Developer & AI Automation Specialist, Project-Based

Remote, UK

June 2026 – Current

- Built a Make automation (Gmail Watch to Google Calendar) for AI-powered appointment scheduling, running 24/7 without intervention.
- Built a business intelligence dashboard (Next.js, TypeScript, Supabase) integrating the GoHighLevel and Ninox APIs with time-scoped KPI reporting for clinic leadership.

AGENCY BUILDER PRO

Full-Stack Developer, Project-Based

Remote, US

May 2026 – Jun 2026

- Delivered a full-stack campaign monitoring dashboard (Next.js, Supabase) with automated data sync, multi-user authentication, and per-client KPI views; received a written letter of recommendation.

10Q HOLDINGS

Technical Automation Engineer & Operations Lead, Full-Time

Remote, UK

Mar 2026 – Current

- Appointed team lead across a three-person remote operations team within the first month; responsible for system ownership, output quality, and team coordination.
- Built a research pipeline using Google Gemini, generating 50+ verified outreach profiles per day; configured production server infrastructure (Ubuntu 24.04, Tailscale, XRDP) for 24/7 automation workloads.

STAGERA

Software Engineer, Part-Time

Remote, US

Feb 2026 – Current

- Shipped 50+ features and resolved 200+ bugs across a 19-module event management SaaS platform (React, TypeScript, Supabase, PostgreSQL).

MOUNTAIN TOP CABLE TV NETWORKS

Mobile Application Developer, Project-Based

Tagaytay, Cavite, Philippines

Jul 2025 – Jul 2026

- Architected "NAP Finder," a Flutter-based geolocation tool to track 3,000+ Network Access Points (NAPs), replacing manual spreadsheet lookups and reducing technician asset search time from 15+ minutes to under 60 seconds.
- Built a Google Apps Script system automating inventory logging, usage tracking, and customer data entry, reducing processing time from hours to minutes.

PERSONAL PROJECTS

OLJ JOB SCOUT BOT

Mar 2026

- Built a 24/7 Python automation agent (BeautifulSoup, HTTPX, SQLite) to monitor OnlineJobs.ph and deliver real-time Telegram alerts for filtered job leads, reducing manual search time by ~95%.
- Deployed as a persistent Linux systemd service with deduplication logic tracking thousands of unique job IDs, achieving near-zero redundant notifications and continuous uptime.

ORGANIZATIONS

COLLEGE OF ENGINEERING AND INFORMATION TECHNOLOGY - SC

Indang, Cavite, Philippines

Vice President for Operations and Implementation

Sep 2024 – July 2025

- Recognized as the Student Council Officer of the Year and Top Performing Officer for eight (8) consecutive months; authored six official resolutions and served as technical lead for university-wide events.
